

## **Special Services**

Vision screening is provided for all children in grades PK-5, special education, and those referred by a teacher. If you have concerns about your child's vision, please contact the school nurse and request a vision screening.

Hearing screening is provided for children in grades PK-2 & 8th by AEA267. The screening is usually done in the fall. Audiograms are run on children with known losses regardless of grade. If you have concerns about your child's hearing, please contact the school nurse and request a hearing screening.

Speech services are provided through the AEA267. If you have questions, contact the principal at school. A school social worker, educational strategist, and school psychologist are employed by the Area Education Agency and are each at the Jesup Community School each week. If you feel your child would benefit from their services, contact the principal.
